The Chinese Moon Festival is a mid-autumn festival which falls on the 15th day of the 8th month according to the Chinese lunar calendar. It takes the name from the fact that it's always celebrated in the middle of the autumn season. On that night, the moon is brightest and fullest. Chinese people celebrate the festival by eating moon cakes and having dinner with their families. Children enjoy this occasion and have fun carrying lit lanterns around. Some people prefer to stay at home to celebrate the festival, while others would like to go outside to have a closer contact with the bright full moon.

Chinese International School in Zambia celebrated the Moon Festival at Mandahill, where the Kid's Club opening show took place. The children enjoyed the moon cakes and other special foods at the festival. Children experienced a lot of different activities such as riding a roller coaster, playing on the jumping castles and Grade 4-7 practiced Kungfu, dances, choir whilst dressed in Chinese cultural costumes. A cartoon movie was enjoyed by the children for about 15 minutes . Among other things, children had a privilege

to have a glimpse of the circus show.

In conclusion CIS children had an exciting memorable moment experienced at the Moon Festival at Mandahill Lusaka.

The UN Zambia Day

On a beautiful sunny day, Friday 13th October 2017, The Chinese International School celebrated the UN Zambia Day/Independence day. The students and the members of staff dressed in their colourful traditional attires of their nationalities.

The celebration had various activities and performances from the students including some members of staff such as: singing, dancing, modeling, and reciting poems and many more.

The UN Zambia Day

Then there was a parade where the students and the members of staff were

put in groups according to their nationalities, they marched around the school showcasing different types of attires from different countries. It was a memorable experience and joyous occasion as parents also participated in the event.

Pupils and teachers marched around the playground holding the flags of their nationalities and everybody was happy and cheering for their friends, it was a wonderful event.

It was a great honour and privilege to have CIS Directors as our guest of honour, we had Director Xu Qiong, Director Chen Hang and Director Liu Yuzhou.

The Chinese International School of Zambia hosted the Lotus Lantern Play on the 25th November, 2017 at UNZA Chapel. This was after a rigorous and dedicated rehearsal from both teachers and learners.

The show was preceded by the singing of the National Anthems for both countries, Zambia and China, respectively. Thereafter, the Principal gave an opening speech welcoming the parents and invited guests. The Lotus Lantern Play was graced by the Chinese Ambassador's wife, Madam Geng who later gave a closing speech at the end of the show.

The play was about Chen Xiang, a boy who was a product of love between a human and a goddess. However, Lord Erlang, who was the brother to the mother, imprisoned the mother and killed his father and later on kidnapped Chen Xiang as well. The boy had to look for outside help from the Earth God and Monkey King in order to defeat Lord Erlang. Despite passing through difficult and challenging moments Chen Xiang managed to defeat Lord Erlang and released his mother from imprisonment.

There were also supporting acts from various classes from Nursery to Grade 6 as well as the Si Ya Dance Group and Kung Fu Class.

The directors for the play were Teacher Mulenga and Teacher Chisulo. Though, this play could not have been successful without the help coming from other teachers who ensured that each part of the play was a success.

A strong propulsive kick, good body and head position, which will always reduce resistance whenever one is swimming through the water.

Our staff teach various strokes progressively: body position, legs, arms and breathing separately.

In summary, it is important to learn to swim correctly because the more competent you are in water, the better chances you have to survive if ever in trouble.
